MADE IN USA

Bruno engineers and manufactures our stairlifts in Wisconsin, USA. Each curved rail is carefully crafted by hand to ensure an optimal fit and ride. We take pride in our artisan touch!

BRUNO®

CUSTOM FIT. HIGH-PERFORMANCE.

Handcrafted. Elegant, handmade rail delivers a precision fit and smooth ride while the covered gear rack gives clean, graceful appearance.

Easy-to-Use. Armrest control glides stairlift up and down. Two wireless call/send remotes are also included.

Adjustable. Change seat and footrest height and space between arms for optimal fit for your body.

Compact. Vertical, custom rail leaves maximum open space on steps. Fold the arms, seat and foot-rest when not in use to save even more space.

Safe. Seat swivels 90° at top of steps and locks in place for safe exit away from stairs. Seat belt and obstruction sensors further ensure safety.

Dependable. Battery-powered operation ensures performance, even in the event of a power outage.

AVAILABLE OPTIONS

Add extended rail positions to park the stairlift safely away from the steps or out of view and an optional mid-park charging station for stairs with middle landings.

Get an extra-wide seat or larger footrest to comfortably accommodate larger stairlift riders.

Eliminate the need to lean over with a power folding footrest. Fold the seat and the footrest will automatically fold, too. Convert from manual to a power swivel seat and the chair will automatically rotate with the push of a button.

Request a four-point harness for additional securement points on the chair. Multiple chair colors also available.
