1000

1000

The sleekest track in our range, the **1000** provides minimal intrusion into the staircase. Its anodized aluminum rail offers a stylish and unexposed solution with a hidden gear rack that can safely lift up to 440 lbs. Handicare has been a world leader in innovative lifting and mobility solutions for 130 years, providing safe solutions such as the 1000 stairlift.

- Includes user-friendly retractable seatbelt
  Not available on the XXL model

Each unit comes with 2 handheld remotes to easily retrieve the stairlift

Prevent unauthorized use with provided key

Durable add-on packages for commercial and heavy duty applications available

Limited lifetime warranty on the motor and gearbox; 2 year manufacturer's parts warranty

A sleek and durable solution that is perfect for both the indoors and outdoors

Ergonomic and innovative design features

For an easier exit, **swivel** your seat toward the landing once you reach the top, either manually or upgrade to our automatic powered option.

Surrounded by **safety sensors,** Handicare stairlifts are designed to stop if meeting an obstruction – keeping you safe and still on your seat.

The toggle control was designed in collaboration with occupational therapists to ensure it is **easy-to-use** and operate – simply push with your hand, arm or wrist in the direction you want to go.

The **outdoor** stairlift is UV protected and weatherproofed to withstand the elements. Includes a waterproof cover so it is always dry and ready.

The **Perch Seat** option is ideal for users with limited hip and knee flexibility. The low profile "perch" style seat means your legs don't have to bend to use it yet you still feel secure.

The 1000 can be combined with a powered or manual **hinge** solution to prevent the track from obstructing a doorway at the base of the stairs.

Your first step to independence
