PRECISION PAINT FINISH

Cab panels are finished using a carefully controlled four-coat painting. Each panel is thoroughly sanded and prepared before receiving two coats of primer and two coats of topcoat. Between primer coats, additional sanding is performed to smooth the surface and carefully finish profiled and recessed details. The process results in consistent color, coverage and curing.

TOUCHSCREEN COP

The Savaria touch screen COP (cab operating panel) provides control for the operation of your home elevator for desired floor and alarm functions on the large glass screen. Animated themes show the movement as the elevator travels floor-to-floor. Choose your theme suit your décor, or even your mood of the moment with a simple swipe. Customize landing names when you order your elevator.

Auto Slim Doors can only be installed with Auto Slim Gates, not accordion or bifold gates.

*Also available as fire-rated doors.

LUXURY FLUSH DOOR (Optional)

If you prefer a swing-style landing door, please select the Luxury Flush Door, or the frame-only version to pair with your own door slab. This ensures your elevator will meet A.17.1 safety code.

FEATURES

1. Solid slab* 1¾" (44 mm) thickness with stability strength, paint grade finish
2. Option to add hall station to the frame
3. Add your own exterior hardware to match home
4. Integrated pocket in frame accommodates ½" drywall for seamless edges
5. Concealed hinges for a clean look
6. Low profile, white painted aluminum frame, can be custom painted on site
7. Completely concealed electric Kronenberg interlock, exclusive for North America
8. Sleek interior door hardware provides pull-to-open with emergency release mechanism

mechanism hidden inside the frame

LUXURY FLUSH DOOR SLAB OPTIONS

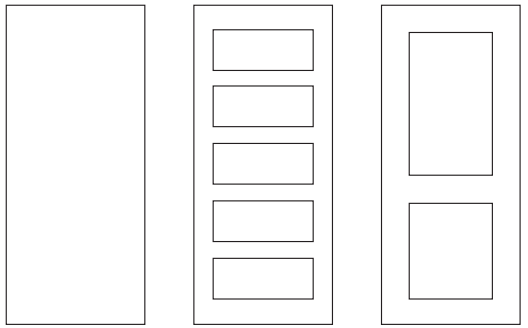

GROOVED 5 PANEL

GROOVED 2 PANEL

GROOVED DETAIL

The Luxury flush door is available in several sizes:

36" x 80" (914 mm x 2032 mm)
36" x 84" (914 mm x 2134 mm)
36" x 96" (914 mm x 2438 mm)

LUXURY FLUSH DOOR FRAME-ONLY OPTION

Can be ordered as a frame-only option and use with custom door slabs.

Take advantage of the Luxury Frame features and code-compliant design while matching any other door in the home.

STEP files will be provided to be used by a CNC-equipped woodshop to machine the required hardware pockets directly into the slab.

Jig cut-outs are also available to contractors via Savaria dealers upon request.
